Introduction

This document contains a quick starting guide on how to manipulate basic functions of the TackTick Race Master Compass.

Always feel free to contact us by telephone (+351 219 233 147) or by email (petticrows@petticrows.com).

How to setup the countdown

To set up the countdown enter the timer mode, press the key ▲ until the letters "TMR" appear at the bottom of the display. Next, to adjust the countdown time, press ● for 2 seconds until the time starts flashing. Use ► to increase the time and ◀ to decrease it. Once the time is correct, press ● .

How to start the countdown

To enter the timer mode, press the key ▲ until the letters "TMR" appear at the bottom of the display. To start the countdown, press the button ● . Ensure that the countdown time matches the warning signal. If the time is not synchronized with the start time, you can adjust it by pressing the key ● . The TackTick will adjust to the nearest full time.
